

## Critical Legal Applications

---

### System Design, Implementation and Integration

The Technical Consulting Group provides technology planning, systems design and implementation for organizations of all sizes, We deliver superior legal application consulting services by combining technical expertise, best practices, industry partnerships, and more than 20 years of experience.

---

*Kraft Kennedy has been providing technology and management consulting services to professional service firms and corporations for more than 20 years. Our team consists of experienced managers, CIOs, executive directors, lawyers, and technical experts who collaborate to offer a wide range of services to our clients. ■*

---

Our consultants focus on these core competencies:

- Document Management
- Matter Centricity
- Legal Application Design & Implementation
- SharePoint
- Mobile Connectivity
- Needs Assessment
- Data Center Design & Consolidation
- Library Consolidation

By understanding and working through the challenges associated business needs, our team will help ensure that your legal applications are designed and implemented optimally. Our consultants work collaboratively with, and where required augment, IT staffs to ensure that projects receive proper resources and technical expertise.

Our consultants have the organizational and technical experience to help you plan and execute your project successfully. We work with you to develop an environment that improves user productivity, addresses your business issues and is able to grow to meet the organization's needs.
